Individual Project: Website with a CV

Mentor-Review

HTML CSS

Estimated Time of Completion: 4–8 hours

Congratulations on reaching the last part of the HTML/CSS topic! In this document, you will find a detailed description of your individual project. Please read it carefully.

Deadline

in 2 weeks.

We don't have any strict deadlines, but we recommend completing the project

Prerequisites

Complete all the lessons on HTML and CSS. This means that all of your home

To participate in the project, you must:

assignments on these topics should be approved by mentors.

Imagine that you have already finished this course. You want to apply for a job,

Task Description

so you need a resume. Create one to showcase your HTML and CSS skills and experience.

Your ultimate goal is to create this online resume as a website, so you will be able

Development Goals

Create a web page and fill it with content about you turning it to a resume.

Make a resume responsive, so it will look good on any device.

Style your resume using CSS.

to share it with anyone, especially your potential employers.

Your main learning goals for this project are to:

Step 1. Create the structure of your resume

Action Plan

Add a heading with your first and last name.

Style your name:

Create a web page.

- Italicize your first name.
- Bold your last name. Underline your full name.

 - Add your contact information: Email
 - Phone Number Address
 - Add sections for your:
 - Work Experience Education
 - Skills
 - Spoken Languages

Social Media Links

Add a profile picture.

References Certifications

Hobbies

- Make the social media links open in a new tab.
- Add a summary section.

Step 2. Add styling for your resume

Add classes to your HTML elements.

Organize your code using semantic HTML tags.

- Create a CSS file and link it to your HTML file.
- Change the font of your web page to "sans-serif." Change your web page's background color to #f5f5f5.
- Remove the underline from your links. Add a border to your profile picture.

Remove the bullets from your lists.

Make your profile picture round.

in the previous lesson.

Skills

Step 3. Make your resume web page responsive Import the Font Awesome icon library. The instruction on how to do it is

Create a "div" container for the whole resume.

Separate the sections of your resume using a horizontal line.

on the left side of the resume: A "div" for the right side of your resume

A "div" for your profile picture

An "h2" element for your name

A "div" for your contact information

Create a "div" for the right side of your resume. The succeeding parts should be on the right side of the resume. They all should be "div" containers for each of the following sections:

Create a "div" for the left side of your resume. The succeeding parts should be

- Spoken languages Hobbies
 - Make both the left and right sides of the resume display in a column arrangement when the device is <768px.

Documents to Hand in

A folder with:

- Examples

An HTML file A CSS file

Other files used for your web page

The design may vary. If you need some inspiration, check projects made

by our students. We encourage you to create your own design though.
